EDUCATION

California Polytechnic State University, San Luis Obispo Expected 2030
Bachelor of Science in Statistics
Relevant Coursework (in progress): Statistics I; Intro to Statistical Computing with R; Calculus for Data Science II

TECHNICAL SKILLS

Languages: Python, R, Java
Data & Statistics: Data cleaning, exploratory data analysis, data visualization, statistical analysis
Tools & Technologies: Git, GitHub, RStudio, JMP, VS Code, API integration, JSON, automation

RESEARCH & PROJECTS

WiDS Datathon - Income Brackets & Medical Insurance
Python | Healthcare Data Analysis | 2024
- Analyzed healthcare-related data to investigate relationships between income and medical insurance costs.
- Cleaned data, conducted exploratory analysis, and created visualizations to identify patterns; presented findings to peers and instructors.

Amazon.com Customer Buying Trends
Independent Research | Literature Review
- Authored "Timing the Click: How Time of Day Shapes Online Consumer Behavior," examining time-of-day patterns in customer purchasing on Amazon.com.
- Synthesized 20+ sources to examine deliberate morning purchases and impulsive evening buying; communicated findings in a research paper.

Python API Automation Project
Python | APIs | JSON | Git/GitHub
- Built a multi-file Python application to retrieve and process real-time data from external APIs.
- Implemented API authentication, JSON data handling, configurable parameters, automated decision logic, and logging.

AI Chatbots for Education - Inspirit AI
Python | Artificial Intelligence
- Completed a collaborative AI project exploring educational chatbots; applied programming and AI concepts to investigate technology-supported learning solutions.

EXPERIENCE

Officer | Amador Valley Robotics - Avengineers Jan 2023 - Jan 2024
- Collaborated to design, build, and test a competitive robot; coordinated meetings to track technical progress and supported STEM outreach to middle and high school students.

Peer Tutor | Village High School Nov 2024 - Dec 2024
- Tutored students in grades 10-12 in mathematics and science through Saturday Academy.

Brand Representative | Hollister Co. Dec 2025 - Aug 2026
- Provided customer service and product support while collaborating with teammates on daily retail operations.

CERTIFICATIONS & AWARDS

Certifications: Python Essentials - IBM Skills Network / edX; Data Science Foundations - Level 1 - IBM Skills Network
Awards: Moonbattle - Most Innovative Idea; VEX Over Under - 3rd Place, Most Defensive Robot
